

City of Hayward	To fund and support the Hayward Evaluation and Response Teams (HEART) Program, which seeks to reduce the need for officers to intervene in calls for service involving people experiencing mental illness, substance-use disorders, and homelessness.	Alameda County	\$709,000
City of Berkeley	To renovate the Martin Luther King Junior Youth Services Center in Berkeley, CA, including upgraded seismic and utility systems.	Alameda County	\$750,000
City of Pleasanton	To construct a new water well in order to offset the loss in clean water and pumping capability that has been lost due to other wells being decommissioned because of dangerous PFAS chemicals.	Alameda County	\$2,000,000
Alameda and Contra Costa Counties, CA; U.S. Army Corps of Engineers	Funds would be used for the design of the Emeryville-Albany Pipeline, which is the next phase of the East Bayshore Recycled Water Project. The Emeryville-Albany Pipeline project will design and construct four miles of recycled water pipeline to connect the Cities of Emeryville, Berkeley, and Albany.	Alameda County, Contra Costa County	\$4,200,000
Town of Paradise	To construct a road to provide direct connections to downhill evacuation routes and additional flexibility for traffic management in Paradise, CA.	Butte County	\$1,800,000
County of Butte	To design and construct new infrastructure to resolve the issue of poor drinking water quality for residents in Palermo.	Butte County	\$2,500,000
Calaveras County, Section 219, CA; U.S. Army Corps of Engineers	To make improvements at the Copper Cove Wastewater Treatment and Reclamation Facility in Copperopolis. The funds would be used to raise the secondary treatment effluent reservoir dam 10 feet.	Calaveras County	\$1,000,000
Leaven Kids, Inc.	To purchase two new learning centers in Concord and Corona. Funding will go toward equipment, including laptops, smart boards, and two vans.	Contra Costa County	\$147,000
Tolowa Dee-Ni' Nation	To construct a wastewater collection system within the mobile home park.	Del Norte County	\$1,250,000
Lake Tahoe Community College District	To purchase a 4,500 square foot wildfire training structure in South Lake Tahoe.	El Dorado County	\$1,400,000
Redbank and Fancher Creeks, CA; U.S. Army Corps of Engineers	To complete a study needed to re-operate the Big Dry Creek Reservoir. The project contains three elements aimed at the creation of improved regional water supply, including better capacity in the existing Big Dry Creek channel, improved recharge potential through the Big Dry Creek channel, enhanced urban access via the creek-lined trails for residents in the project area, and the overall creation of more resilient water conditions in the region.	Fresno County	\$200,000
City of Parlier	To renovate a police station and a new dispatch center in Parlier, CA.	Fresno County	\$875,000
Community Regional Medical Center	To expand and enhance physical lab space to incorporate a new automated microbiology track, replace equipment that is on loan from the State of California, purchase special equipment to help with complex respiratory and COVID-19 disease management, and provide storage for COVID-19 testing reagents.	Fresno County	\$1,500,000
City of Imperial	Funds would allow the City of Imperial to partner with local developers and landlords to afford prospective entrepreneurs an opportunity to test their restaurant concepts. The city hopes to create five to eight successful incubators within the community.	Imperial County	\$1,200,000
West Kern Community College District (WKCCD)/Taft	To construct a vocational training facility to help train essential healthcare professionals, serving approximately 8,000 students a year.	Kern County	\$2,500,000
Kings County Area Public Transit Agency	To construct a new Regional Multi-Modal Transit Center in downtown Hanford, CA.	Kings County	\$5,000,000
City of Hanford	To renovate the Hanford Veteran and Senior Building in Hanford, CA. Upgrades include replacing the roof, flooring, and the ADA ramp.	Kings County	\$561,000
Upper Santa Clara River Watershed Management Project, CA; U.S. Army Corps of Engineers	Funds would be used to advance the Arundo Management Project—including by conducting a feasibility study—to improve the quality of the Santa Clara River watershed, which is struggling with an infestation of invasive plants, primarily arundo.	Los Angeles County	\$50,000
San Gabriel Basin Restoration Fund, CA; Bureau of Reclamation	This project provides for groundwater cleanup in the San Gabriel Basin and the Central Basin in Southern California. It will support activities at 33 active groundwater cleanup projects that use technology to remove contaminants.	Los Angeles County	\$10,000,000
South Coast Air Quality Management District: Zero Emission Fuel Cell Locomotive; South Coast Air Quality Management District	This project will replace one line-haul locomotive engine with a zero-emission fuel cell engine—the first-ever zero-emission line-haul locomotive in the South Coast Air Basin.	Los Angeles County	\$500,000
Interagency Communications Interoperability System	To fund communications upgrades to an existing wide-area regional Project-25 Digital Trunked Land Mobile Radio (LMR) system employed by more than 70 first responder agencies.	Los Angeles County	\$2,500,000
Torrance Police Department	To purchase body-worn and in-car cameras for the Torrance Police Department.	Los Angeles County	\$1,615,000
City of Long Beach	Funds would be used to purchase and renovate a facility to house the Long Beach Accelerator in downtown Long Beach. The business accelerator is a partnership between the City of Long Beach, Long Beach State University, and the Sunstone Private Equity Fund to assist local entrepreneurs with funds to start businesses, with a goal of growing the tech industry in the region. Accelerators provide investment opportunities, office space, and technical resources to companies.	Los Angeles County	\$1,000,000
City of Glendora	To construct over seven miles of bike and pedestrian paths, curb extensions, and wider sidewalks in the City of Glendora, CA.	Los Angeles County	\$5,000,000

County of Los Angeles	To construct a mixed-use project that will include 180 affordable housing units for families and seniors, a SEED LA boarding school for 400 high school students, retail space, a public transit hub, a Los Angeles County Metropolitan Transportation Authority workforce training center, and a quality grocery anchor.	Los Angeles County	\$2,500,000
Los Angeles County Metro Transportation Authority	To construct the West Santa Ana Branch Transit Corridor, a planned light rail transit system that will run through a 19-mile corridor and connect downtown Los Angeles with southeast Los Angeles.	Los Angeles County	\$10,000,000
U.S.VETS (United States Veterans Initiative)	To support the renovation of the Wadsworth Chapel to house the Veterans Center for Moral Injury at the West Los Angeles VA Campus.	Los Angeles County	\$1,840,000
San Gabriel Valley Regional Housing Trust	Funding to develop affordable and homeless housing projects in the San Gabriel Valley.	Los Angeles County	\$4,000,000
YWCA Harbor Area & South Bay	To restore and renovate the historic YWCA in San Pedro and construct a new transitional housing building for women and children.	Los Angeles County	\$1,000,000
City of Santa Clarita	To advance the Safe Routes to School Plan in the City of Santa Clarita, which will improve street safety for students commuting to school.	Los Angeles County	\$1,313,000
City of Torrance	Funding for the Torrance Temporary Housing Program, which will provide 40 units of housing for people experiencing homelessness.	Los Angeles County	\$1,750,000
City of Burbank	To refurbish space at the Burbank City Hall to provide a dedicated emergency operations center.	Los Angeles County	\$1,235,750
City of Commerce	To construct a new emergency operations center in the City of Commerce.	Los Angeles County	\$1,482,900
City of Rancho Palos Verdes	To install hydrangers, implement new drainage features, and fill fissures caused by landslide movement in the Portuguese Bend Landslide Complex.	Los Angeles County	\$2,000,000
Los Angeles Community College District	To fund a pilot program at the LACCD STEM Academy for Girls, Women, and Underrepresented Students to support economic and career advancement.	Los Angeles County	\$750,000
San Gabriel Valley Council of Governments	To purchase equipment and supplies for an alternative mobile crisis response team in the San Gabriel Valley.	Los Angeles County	\$1,500,000
Santa Clarita Community College District	To purchase apparatus and equipment to expand the capacity of the Regional Fire Academy in Santa Clarita.	Los Angeles County	\$2,300,000
Hamilton Airfield Wetlands Restoration, CA; U.S. Army Corps of Engineers	Funds would be used for Phase Two of the Hamilton Wetlands Restoration Project, which would allow the Army Corps to initiate design and permitting work for dredged sediment delivery at Bel Marin Keys. The project will restore seasonal and tidal wetlands habitats.	Marin County	\$500,000
Marin Clean Energy Storage Program; Marin Clean Energy	This demonstration project would help expand an existing program to install energy storage in the most vulnerable communities in Marin County. Funding would go to Marin Clean Energy to provide technical assistance and direct installation of energy storage at community centers and single family residences.	Marin County	\$500,000
City of Gustine	To establish 4G Immediate Access Infrastructure to provide internet access to the City of Gustine, CA.	Merced County	\$1,350,000
Legacy Health Endowment	To help low and middle income families that do not qualify for Medicaid support to achieve their maximum level of independence in home-based, family centered caregiving while improving overall health outcomes.	Merced County and Stanislaus County	\$125,000
County of Monterey	To establish the Monterey Family Justice Center to serve victims of violence, which are disproportionately low-income women.	Monterey County	\$275,000
City of Salinas	To fund an integrated technology project for community and officer safety in Salinas, CA, including: a gunshot detection system, dash cams, stationary license plate reader camera system, and a new software integration platform for crime and intelligence analysis.	Monterey County	\$1,165,000
Monterey-Salinas Transit District	To construct a bus rapid transit corridor along the central coast of California in the Monterey Salinas Transit District.	Monterey County	\$3,000,000
Monterey County Water Resources Agency	To plan and construct a single replacement well for the Castroville Seawater Intrusion Project, part of a system that delivers water in northern Monterey County.	Monterey County	\$900,000
City of Napa	To support the renovation of long-term housing support for those experiencing homelessness in the City of Napa, CA.	Napa County	\$750,000
Napa Communities Firewise Foundation	To remove hazardous standing vertical fuels in Napa County.	Napa County	\$1,500,000
Marin Clean Energy	Funds for Marin Clean Energy to upgrade electrical panels to mitigate fire risk and enable electrification upgrades.	Napa County, Solano County, Contra Costa County, Marin County	\$750,000
County of Nevada	To support implementation on 1,200 acres of shaded fuel break initially treated in 2019/2020.	Nevada County	\$750,000
County of Orange	To support the planning and construction of the Families and Children's Mental Health Campus.	Orange County	\$3,000,000
Children's Hospital of Orange County	To acquire and install pediatric interventional radiology equipment at the Children's Hospital of Orange County.	Orange County	\$1,500,000
Irvine Valley College	To support the Irvine Valley College Access and Persistence through Basic Needs Pilot Program, which will allow students who are experiencing housing, food, or transportation insecurities to receive the support and resources.	Orange County	\$337,000
Murrieta Creek, CA; U.S. Army Corps of Engineers	To advance the Murrieta Creek Flood Control Project, which consists of about seven miles of channel improvements, three bridge replacements, a 270-acre multi-purpose basin with 163 acres of wetland restoration, and a 49 acre park.	Riverside County	\$8,500,000

Desert Hot Springs, Section 219, CA; U.S. Army Corps of Engineers	Funding would be used to allow the Army Corps to continue to make progress on the construction of the Groundwater Quality Protection Project, a program that involves water infrastructure upgrades and the transition from thousands of individual septic tank systems to a wastewater collection and treatment system.	Riverside County	\$800,000
Mecca and North Shore Electric Infrastructure Resiliency Project; Imperial Irrigation District	This project will help protect Mecca and North Shore communities from prolonged power outages by funding a retrofit of existing overhead distribution lines, constructing a new extension line, installing a new circuit breaker, and retrofitting a single phase pole line to reduce the number of customers affected by outages.	Riverside County	\$1,200,000
City of Temecula	To install a vehicular roundabout at the intersection of DePortola Road and Jedediah Smith Road within the City of Temecula to address traffic congestion and delays, and improve traffic safety.	Riverside County	\$800,000
Eastern Municipal Water District	For the preliminary and final design and construction of aging sewer lines.	Riverside County	\$3,452,972
Coachella Valley Water District	For the installation of new water mains and to consolidate nine small water systems.	Riverside County	\$3,452,972
Riverside University Health System (County of Riverside)	To purchase one single-plane catheterization lab.	Riverside County	\$1,000,000
American River Basin Hydrologic Observatory Wireless Sensor Network Project, CA; Bureau of Reclamation	This project will upgrade 10 of the 12 planned sensors in the American River Basin Hydrologic Observatory network, a wireless sensor system in the Sierra Nevada's that measures snow depth, temperature, humidity, and soil moisture in real time to accurately forecast annual snowpack runoff.	Sacramento County	\$875,000
Sacramento River Basin Flood Plain Reactivation, CA; Bureau of Reclamation	Funding would continue efforts to reactivate historic floodplains in the Sacramento River Basin to build resiliency in California's natural infrastructure and water systems by: supporting the abundant return of migratory birds along the Pacific Flyway; revitalizing river food webs and supporting the recovery of salmon populations; recharging groundwater aquifers; and improving flood protection.	Sacramento County	\$7,859,000
Sacramento River Fish Screen Program, CA; Bureau of Reclamation	The requested funding would complete one of the final two high priority fish screen projects on the Sacramento River, make significant progress on the last of the final two fish screen projects, and make other investments in fish passage and fish screens.	Sacramento County	\$1,734,000
City of Sacramento	To install electric vehicle charging infrastructure and expanded electrification of Sacramento's municipal vehicle fleet.	Sacramento County	\$4,300,000
Sacramento County	To repair and renovate the Mather Community Campus (MCC) Emergency Shelter Campus in Sacramento County.	Sacramento County	\$1,500,000
City of Montclair	To purchase body-worn cameras to be used by officers in Montclair, CA	San Bernardino	\$800,000
Inland Valley Development Agency	To complete roadway improvements along the north side of 3rd Street, a regional arterial roadway connecting to San Bernardino International Airport.	San Bernardino	\$3,000,000
San Bernardino County Fire Protection District	To construct a new fire station on Mount Baldy.	San Bernardino County	\$3,750,000
San Bernardino Valley Municipal Water District	To improve existing facilities and construct new facilities.	San Bernardino County	\$2,500,000
California State University San Bernardino (CSUSB)	To purchase teaching and laboratory equipment to support a Master of Science in Physician Assistant program at California State University San Bernardino.	San Bernardino County and Riverside County	\$2,000,000
Scripps Institution of Oceanography	Seafloor characterization and assessment of bioremediation and contaminant impacts in the Southern California mid-channel.	San Diego County	\$6,000,000
Camp Pendleton	To construct a Child Development Center at Camp Pendleton.	San Diego County	\$32,100,000
Marine Corps Recruit Depot San Diego	To construct a recruit barracks that will support newly integrated female recruits.	San Diego County	\$82,230,000
County of San Diego	To fund one-time costs associated with maintaining existing high value fuel breaks, conducting an environmental analysis, and hand crews and heavy equipment to conduct the treatments.	San Diego County	\$1,500,000
County of San Diego	To purchase a twin-engine helicopter to support firefighting.	San Diego County	\$3,750,000
Valley Center Municipal Water District	To replace a 60-year-old pipeline which has become an unreliable portion of the Water District's distribution system.	San Diego County	\$3,060,000
County of San Diego	To enhance the Mobile Crisis Response Team (MCRT) program by adding overnight coverage for training and equipment.	San Diego County	\$4,480,000
La Maestra Family Clinic Inc.	To reconfigure La Maestra Community Health Center's newly acquired building.	San Diego County	\$752,000
La Maestra Family Clinic Inc.	For building improvements that will include expanding the facility by an additional 5,700 square-feet to add comprehensive behavioral health and substance abuse disorders services and an improved pharmacy.	San Diego County	\$274,000
San Francisco County Transportation Authority	To seismically retrofit eight existing bridge structures along Treasure Island Road.	San Francisco County	\$2,200,000
GLIDE Foundation	To provide health care, medical testing, treatment for substance use disorders, and other services via the GLIDE Foundation's Integrated Mobile Services program in San Francisco.	San Francisco County	\$500,000
Water Emergency Transportation Authority	To support the installation of diesel filter systems on two Water Emergency Transportation Authority (WETA) passenger vessels to reduce emissions.	San Francisco County, Alameda County, Contra Costa County, Solano County	\$1,520,000

Peninsula Corridor Joint Powers Board	To install a railway signaling system for Caltrain's Peninsula Corridor Electrification Project.	San Francisco County, San Mateo County, Santa Clara County	\$10,000,000
San Joaquin Valley Drought Relief, CA; Bureau of Reclamation	Funds would be used to develop up to 40,000 acre-feet of new long-term water supply via the construction and replacement of wells and surface pumps on the San Luis, Merced, Pixley, and Kern National Wildlife Refuges; the Los Banos and North Grassland Wildlife Management Area; and the Grassland Resource Conservation District.	San Joaquin County	\$6,095,000
San Joaquin Valley Water Collaborative Action Program, CA; Bureau of Reclamation	The San Joaquin Valley Water Collaborative Action Program has been building a broad coalition of support to assure safe, reliable, and affordable drinking water for all San Joaquin Valley residents in 10-15 years, reduce agricultural water demands to sustainable levels primarily through voluntary land repurposing, and increase water supply primarily by managing flood waters and atmospheric rivers for groundwater replenishment.	San Joaquin County	\$750,000
San Joaquin Council of Governments (via CalTrans)	To reconstruct the existing interchange between State Route 99 and State Route 120 in Manteca.	San Joaquin County	\$5,000,000
County of San Joaquin	To design and construct a new public health facility in Stockton.	San Joaquin County	\$3,000,000
City of East Palo Alto	To relocate and expand the library in East Palo Alto, CA.	San Mateo County	\$1,500,000
City of San Mateo	To support renovation of the Marina Library in San Mateo to install foundation support.	San Mateo County	\$1,500,000
City of East Palo Alto	To fund a consulting firm to create the initial plan for upgrading the city's water infrastructure.	San Mateo County	\$800,000
Guadalupe Union School District	To build a new early education center in Guadalupe, CA.	Santa Barbara County	\$2,000,000
Cachuma Operation and Maintenance Board	To construct, install, and operate a pumping barge and associated equipment.	Santa Barbara County	\$500,000
City of Santa Clara - Fire Station Microgrid Project; City of Santa Clara	This demonstration project would fund the purchase of battery equipment to accelerate microgrid technologies by installing solar and battery energy storage at fire stations. It will also develop utility microgrid standards, enabling the addition and expansion of future microgrid projects within the service territory.	Santa Clara County	\$500,000
The Friendship Foundation	To expand the Friendship Foundation's Inclusive School Friendship Club, a program that pairs special needs children with student volunteers to eat lunch, socialize after school, and attend school events.	Santa Clara County	\$1,000,000
California State Maritime Academy Academic Microgrid; California State University Maritime Academy	This demonstration project will create a solar energy microgrid at the California State Maritime Academy generating 2.46 gigawatts per year, which will offset up to 35 percent of the campus' total energy.	Solano County	\$1,000,000
City of Vallejo	To purchase and install auditory gunshot detection equipment in Vallejo's highest-crime hotspot neighborhoods.	Solano County	\$830,000
Occidental County Sanitation District	To cover the design, environmental review, and right of way acquisition to build a 4-6-inch sewage pipe connecting Occidental to the treatment plant in Graton.	Sonoma County	\$1,450,000
City of Modesto	To support design and construction to replace nitrate treatment equipment and repair or replace a storage tank.	Stanislaus County	\$1,750,000
City of Modesto	To address mental health issues in the community through the creation of a community mobile response team and enhance existing support programs.	Stanislaus County	\$1,000,000
City of Tulare	To construct the Tulare Emergency Homeless Shelter to house up to 400 individuals.	Tulare County	\$1,500,000
Allensworth Community Services District	To install a solar array to power the community's well and appurtenances, thereby reducing the County's costs and improving affordability.	Tulare County	\$150,000
City of Tulare	To construct a water delivery system that will ensure clean drinking water is delivered in an efficient and safe manner to residents.	Tulare County	\$500,000
Woodville Public Utility District	To drill and equip a new well.	Tulare County	\$1,150,000
County of Tulare	To purchase and install drinking water kiosks for disadvantaged residents.	Tulare County	\$200,000
Ventura River Project, CA (Robles Diversion Improvement Project); Bureau of Reclamation	The requested funding would be used by the Bureau of Reclamation's Denver Hydraulics Lab to construct a physical model of the Robles Diversion Facility to test proposed design alternatives developed by the Ventura County Public Works Agency. Reclamation owns the Robles Diversion Facility on the Ventura River.	Ventura County	\$1,500,000
Port of Hueneme Comprehensive Climate Action and Adaptation Plan; Port of Hueneme, Oxnard Harbor District, CA	The Port of Hueneme is requesting funding to complete a comprehensive climate action and adaptation plan. Funding for the project would go towards creating a planning document and inventory of existing emissions, emissions reduction strategy assessments, and goals and timelines for emissions reductions milestones.	Ventura County	\$375,000
City of Oxnard	To systematically replace aging cast iron waterline pipes at risk of failure.	Ventura County	\$2,846,400
City of Thousand Oaks	For the design, construction, and installation of a battery energy storage system and accompanying microgrid electrical infrastructure for the Municipal Service Center.	Ventura County	\$1,853,625
Northern California Streams, Lower Cache Creek, Yolo County, Woodland & Vicinity, CA; U.S. Army Corps of Engineers	Funds would be used to complete preconstruction, engineering, and design work on the Lower Cache Creek Flood Control Project, which will significantly reduce flood risk to people and property in the City of Woodland as well as surrounding areas, including Interstate 5, a major evacuation route for the Central Valley.	Yolo County	\$1,000,000

City of West Sacramento	To convert the top deck of the historic double-deck I Street railroad drawbridge from motor vehicle access to a dedicated bikeway/walkway.	Yolo County	\$4,933,861
-------------------------	--	-------------	-------------
